

CUTHBERT LAB

NAVIGATING TOWARD HEALTH AND WELLNESS

Kaitlin See has completed her Bachelor of Health Sciences (Honours) at the University of Calgary. Starting as a summer student, she is now working as a research assistant for the lab.

Kaitlin helps out with various projects, working on literature reviews, engaging with participants and coordinating the lab's social media presence.

She's interested in learning more about cancer survivorship and oncology research, especially from a multidisciplinary aspect. In her free time, Kaitlin enjoys playing guitar, watching sitcoms, and hanging out with her dog, friends, and family.
